Environmental Assessment for the Recreational Beach Relocation Project Chincoteague National Wildlife Refuge Assateague Island National Seashore

Public Meeting Comment Form

July 25, 2017

The U.S. Fish and Wildlife Service, National Park Service, and the Federal Highway Administration are initiating an Environmental Assessment (EA) to analyze the site design plan for parking and access to the new recreational beach. The relocation of the recreational beach to a new location 1.5 miles north of the current recreational beach was identified and approved in the Final Comprehensive Conservation Plan and Environmental Impact Statement (CCP/EIS) for the Chincoteague and Wallops Island National Wildlife Refuges dated October of 2015.

Conceptual designs for the new beach parking areas and access have been developed by the U.S. Fish and Wildlife Service and the National Park Service through a collaborative process involving local stakeholders including the Town of Chincoteague and Accomack County, Virginia. We are now seeking public comment on these conceptual designs of the new recreational beach, including access and parking areas. All displays from the open house, including the concept design exhibits, are available electronically on the project website: https://flh.fhwa.dot.gov/projects/va/chin-10/.

Please provide your comments regarding the proposed action below:
If you would like to take this form home with you to provide comments at a later date, please mail them no later than August 24, 2017. Comments can also be emailed to NorthChincoteagueBeach@dot.gov.
